

Modify Email Templates

Upon installing WHMCS OVH Notifications will deploy the following email templates to WHMCS > Settings > Email Templates. You can modify each template the module sends to fix your business needs. Notifications for specific incidents can be enabled and disabled from Settings > Addon Modules > OVH Notifications.

Forward anti-hack emails?	<input checked="" type="checkbox"/> Tick to enable
Forward anti-spam emails?	<input checked="" type="checkbox"/> Tick to enable
Forward DDoS emails?	<input checked="" type="checkbox"/> Tick to enable
Forward install emails?	<input type="checkbox"/> Tick to enable
Forward reboot emails?	<input type="checkbox"/> Tick to enable
Forward rescue emails?	<input type="checkbox"/> Tick to enable
